

## Internship Programme

Our Internship Programme provides students with valuable industry-based learning opportunities within the hotel & resort, tourism, and hospitality sectors. The programme is designed to integrate academic knowledge with practical workplace experience, preparing students for professional careers in the industry.

During the internship, students may gain hands-on experience in areas such as hotel front office, food and beverage operations, housekeeping, kitchen operations, recreation services, and human resources. Placement opportunities are also available within the tourism sector, including theme parks, travel agencies, airport ground service coordination, and related organizations.

Students enrolled in the Higher Diploma in Hospitality Management (HDHM) will undertake a 3-month internship, while students from the Applied Hotel and Tourism Management (AHTM) programme will complete a 9-month industry placement. Through these internships, students apply what they have learned in the classroom to real operational environments, gaining hands on skills, professional exposure, and industry insight.

The programme is a key component of our commitment to producing career ready graduates through experiential learning and strong industry collaboration.
